

## **Carbon-monoxide alarm installation**

How can you safeguard your family against a danger that you cannot touch, taste, or smell? Mobile Security Services is the quickest response. Since we have more experience manufacturing carbon monoxide alarms than any other firm, all MSS carbon monoxide (CO) alarm devices, from entry-level models to high-end models, come with the proprietary Nighthawk™ electrochemical CO sensor. Install one outside of every sleeping room and on each floor of your home to experience a whole new level of peace of mind.
